CG, PAF MESSAGE

The issue of reform and transformation is a primary concern for the Philippine Air Force. Today's multidimensional security environment on the one hand and resource constraints and demands of public accountability on the other requires that PAF future development must ensure sustainable force modernization that is aligned with the larger transformation efforts of the AFP while institutionalizing good governance in crafting the ends, ways and means of its strategy.

The PAF Flight Plan 2028 affirms the wisdom and superiority of existing PAF strategic planning initiatives by reiterating the vision of "a professional and competent air force responsive to national security and development" as well as its core values of Integrity, Service above self, Teamwork, Excellence in everything that we do and Professionalism (InSTEP).

Through this Flight Plan, the Philippine Air Force is strengthened in charting its future course as part of a united and mutually supporting AFP Team. Equally important, it is mapping the path towards its vision and the performance of its mandate along the lines of reform and good governance.

LTGEN JEFFREY F DELGADO AFP
Commanding General, PAF

Philippine Air Force Flight Plan 2028

 - Current PADIZ/ PH Area Readiness 3
 - PH Area Readiness 1

PAF Flight Plan Strategy Map

What is the PAF Flight Plan 2028?

VISION A professional and competent Air Force responsive to national security and development.

Philippine Air Force
FLIGHT PLAN 2028

Build capability to detect, identify, intercept and neutralize intrusions in the PADIZ and West PH Sea from Area Readiness 4 to 3 by 2022 and in the entire PH from Area Readiness 3 to 1 by 2028.

Restructure air defense organization into an integrated command.

Provide training for mission-essential tasks to support air defense capability upgrade.

Acquire and upgrade air defense equipment complemented by research and development for Territorial Defense (TD)

Provide and sustain the best talents for air defense prioritizing Air Defense Organization.

Develop doctrines relevant to air defense operations at the strategic, operational and tactical levels.

Upgrade base facilities and support system following an approved master development plan.

Pursue military values towards effective mission performance of Strategic Units

Secure stakeholders' support to generate adequate funding for the Flight Plan.

Breakthrough

Core Process

Support Process

The Philippine Air Force Flight Plan 2028 is a 14-year comprehensive strategic plan aimed at steering the Philippine Air Force to greater heights.

The Flight Plan 2028 was launched with the assistance of the Institute for Solidarity in Asia, a non-stock non-profit organization which utilizes the Performance Governance System (PGS) Framework. The Flight Plan covers the entirety of the PAF and its operations, combining capability, materiel, technology development, the upgrade and strengthening of professionalism and competence of all airmen. The PGS enables the organization to be transparent by reporting on performance gains and focuses on programs and projects that can continue beyond leadership changes of the Command.

The PAF has successfully completed the Initiation Stage of the PGS with the Public Revalida last October 21, 2014 where the PAF garnered the Silver Governance Trailblazer Award. Currently, the PAF is now undertaking the Compliance Stage of the PGS, which includes the establishment of the PAF Office of Strategy Management, Cascading of the Flight Plan to lower units, the creation and implementation of the Strategic Communication Plan, and the formation of the PAF Multi-Sector Governance Council.

MISSION To organize, train, equip, maintain and provide forces to conduct prompt and sustained air operations to accomplish the AFP mission.

Core Values Integrity ♦ Service Above Self
♦ Teamwork ♦ Excellence ♦ Professionalism
